Printing, Binding, &c. Report of Com-

mittee:
The judges, appointed to examine the various specimens of Book and Job Printing, Binding, Paper, &c., exhibited at the State Fair, would respectfully report:

I. That while they find the best single specimen of Job Printing in the frame of Business Cards, marked No. 1, in Class 4, Division 3, Dept. 3, (M. S. Littlefield's) they find the general variety in frame No. 18, same class, &c., (Nichols & Gorman's) to be superior, and therefore adjudge it entitled to the Premium.

Blank Books, No. 5, Class 4, &c., are the best and entitled to a premium.

IV. In Book Printing, the committee find several excellent and creditable specimens, viz: No. 4, (a volume of Supreme Court Reports,) by Nichols & Gorman: a pamphlet printed by M. S. Littlefield for the Superintendent of Public Instruction; and No. 6, (or Johnston's recent work on Insanity) by T. M. Hughes. The latter, after somewhat difficult comparison, they adjudge to be entitled to the premium.

Very respectfully, &c.,

A PROCLAMATE Rorth Carolina.

Executive Department of Forth Carolina.

Razanou, Oct. 20th, 1988.

Otwithstanding the existence of peace

d good order in other partices of the ate, I regard it as my duty to an that 'in four Counties, to-wit: Levoir Jones, Orange, and Chathan there is, and has been for some munths past, a feeling of insubordination and insurrection, insomuch that many good citteens are put in terror for their lives and property, and it is diffi cult, if not impossible, to secure a full and tion has reached, and continues to reach the executive, that in the above Counties a state of feeling exists which is totally incompati-ble with the free exercise, by the friends of the Government, of that independent exression of opinion, and that freedom of ac-American. In Lenoir and Jones va hefts and murders have been com jails have been forcibly opened and the risoners taken thence have been murdered an officer of the law has been waylaid and day while engaged in his ordinary avoca tions. Private dwellings have been entered and the occupants terrified, and some or cruelly beaten; and the result is tha thus far the civil law, though firmly asserted and maintained, has not been adequate to bring the insubordinate and the wicked to condign punishment. In Chatham the jail has been foreibly opened and a prisoner, confined under sentence of a Court of the Uni-ted States, has been liberated and is now at large. In Orange the jail has been forcibly opened and two prisoners (colored men taken out and shot, one of whom has died of his wounds. Three other colored men have been hanged until they were dead, one has been cruelly mutilated, and others have been whipped. White citizens have been injured, insulted and terrified. The University of the State, sacred to the cause of learning, has been repeatedly invaded be ands of armed men in disguise on back, and acts of violence have been there erpetrated on unoffending citizens and officers of the law. Many of the colored people in these Counties, and no inconsiders portion of the white people, though obeing under constant apprehensions that they may fall victims at any moment to the

malice of their enemies. It is made my duty under the Constitution "to call out the militis to execute the law, suppress riots or insurrection and to repel invasion." I deeply regret that it seems necessary to resort to the military power to enforce the law and to protect the citizen. But the law must be maintained. I have waited in vain, hoping that a returning sense of reason and justice would arrest these violations of the law. But these evils, instead of diminishing have increased, and no course is left to me but to issue this proclamation of admonition and warning to all the people of the Counties mentioned, whathor engaged in these flagrant violations of law, or whether indifferent or insensible to what is occurring in their midst. I now call upof the laws. No set of men can take the law into their own hands. Every citizen, however humble, or whatever his co right to be at peace in his own house, and cannot be taken thence except by due pro-cess, and cannot be punished save by the law. If there be those who counsel resis-

tance to established authority, such persons are traiters, and should be punished accord-ingly; if there be those who, disguised or masked, enter the dwellings of others by torce and commit acts of violence, such persons are guilty of felony, and should be pur ished by hard labor in the penitentiary; there be those who, without precept or order, hang, or shoot, or otherwise deprive any should be punished accordingly.

I now give notice in the most sole ner, that these violations of law and these utrages in the aforesaid Counties, much gue; otherwise, I will proclaim those Coun-

ties in a state of insurrection, and will exthe law, to protect those who are assalled or injured, and to bring criminals to justice. In a matter like this there should be no party feeling. It is my fixed purpose to protect every citizen without regard to his antecodents, his color or his political opinions but to do this the law must be sacred, must be spread over all alike, and must be inflex-

ably maintained. Done at our City of Raleigh, this the 20th day of October, in the year of our Lord, one thousand eight hundred and sixty-nine and in the ninety fourth year of our Independence. W. W. HOLDEN, Governor.
